

WAVE BREAKER ISO

Our self-righting liferaft is the ultimate offshore survival craft designed to not only inflate upright, but remain cemented to the surface in rough seas.

- Vacuum Flow Technology prevents raft from inflating upside down
- Industry leading, 4 feet space per passenger
- Bright, florescent safety green canopy
- Oversized inflatable buoyancy chambers
- Weighted, automatically deployed ballast pockets
- Reflective tape and ISO automatically activated canopy light
- Inflatable boarding ramp and internal boarding ladder
- Sea anchor and buoyant rescue ring included
- Dual double canopies enclosures for easy boarding and helicopter extraction
- Two clear windows for 360-degree visibility
- Rainwater collector
- Insulated floor for protection from hypothermia
- Vacuum sealed for protection against the elements
- Includes ISO 9650 equipment pack

MODEL	DIMENSIONS (INCHES)	WEIGHT (POUNDS)
